CAREER OBJECTIVE

I'm Rahul, a passionate full-stack web developer skilled in React, Tailwind CSS, and the MERN stack and committed to creating clean, accessible, and user-friendly interfaces. As a person with a physical disability, I'm driven to build inclusive digital experiences. I focus on writing clean code, learning continuously, and delivering responsive web solutions that work for everyone.

TECHNICAL & SOFT SKILLS

Expertise: JavaScript, React.js, Firebase, Tailwind, HTML5, CSS5

Comfortable: Next.js, REST API, Chrome Dev Tool, Bootstrap,

Familiar: Node.js, Express.js, MongoDB, JWT, Axios, React Query

Tools: Git & GitHub, npm, VS Code, Netlify, Vercel PROJECTS

Soft Skills: Time Management, Adaptability, Communication

Projects

Athletic Event (02 June 2025 - 12 June 2025)

[Github](#) [Live](#)

A dynamic web application for discovering and booking athletic events. Built with Firebase authentication and JWT-secured routes, users can browse events, book participation, and organizers can create and manage events easily.

- **Authentication:** Firebase Email/Google login with protected private routes
- **Event Creation:** Organizers can post events with title, location, date & description
- **Browse Events:** Filter events by type, location, or date
- **Booking System:** Logged-in users can book events and avoid duplicate bookings

Tech Stack: React, Node.js, Express.js, MongoDB, Firebase Auth, JWT, Tailwind CSS, Framer Motion

Deployment: Vercel (client) & Render (server)

Freelance Task (07 May 2025 - 12 May 2025)

[Github](#) [Live](#)

A role-based freelance marketplace platform where users can browse, post, and bid on tasks. Implemented authentication (Firebase), protected routes, task filtering, and dashboards for users. Key features include:

- **Authentication:** Firebase Email/Google login with protected private routes
- **Task Management:** Users can post tasks with title, budget, deadline & description
- **Browse Tasks:** Filtering by category, deadline, and bid count
- **Dashboard:** Shows task stats (total tasks, my tasks), user info, and profile

Tech Stack: React, Node.js, Express.js, MongoDB, Firebase Auth, JWT, Tailwind CSS, Framer Motion

Deployment: Vercel (client) & Render (server)

Event Explorer (25 April 2025 - 2 May 2025)

[Github](#) [Live](#)

Welcome to Event Explorer, a modern and user-friendly event discovery and booking platform built with React. This platform allows users to explore upcoming events, view details, and make bookings—all in one place.

- **User Authentication:** Sign up, login, and logout with Firebase
- **Event Discovery:** Browse events by category (Tech, Art, Music, etc.)
- **Event Details:** View venue, date, entry fee, and event type
- **Responsive UI:** Clean grid layout with images and smooth navigation
- **Role-Based Access:** Users can book events; organizers can manage them

Education

Diploma in Computer Science (2020 - 2024)

Barisal Polytechnic Institute

BSC in Computer Science (Currently studying)

University Of Global Village

Language

Bangla (Native) | English (Fluent)
